LIANDRA CRUZ

VIRTUAL ASSISTANT | EXECUTIVE & ADMINISTRATIVE ASSISTANT | CUSTOMER SUPPORT

liandraluiza.02@gmail.com | +55 (41) 99216-5788 | Paraná, Brazil (Remote) | Linkedin | GitHub

SUMMARY

Detail-oriented Virtual Assistant focused on process organization, efficient communication, problem-solving, and operational efficiency in digital environments. Advanced English speaker with strong self-management and time management skills, along with a fast learning curve for digital tools, automation, and artificial intelligence. Currently seeking remote opportunities to assist executives, businesses, and freelancers in optimizing their daily routines and customer support.

KEY SKILLS & SERVICES

- **Executive & Personal Support:** Calendar and schedule management, email handling, task tracking, and daily routine organization.
- **Administrative Organization:** Spreadsheet creation, virtual file organization in Google Drive, and task management.
- **Customer Support:** Clear and empathetic written communication, multi-channel support, and fast query resolution.
- **Digital Tools & AI Usage:** Applying Generative AI (ChatGPT, Gemini) to boost productivity and build organized workflows.
- **Bilingual Communication:** Advanced English skills for written and verbal communication with international clients.

TECHNICAL SKILLS & TOOLS

- **Productivity & Organization:** MS Office (Excel, Word), Google Workspace (Sheets, Docs, Drive, Calendar), Notion, Trello.
- **Communication & Meetings:** Zoom, Google Meet, WhatsApp Business.
- **Technology & AI:** Basic Programming Logic, Basic HTML5/CSS3, Prompt Engineering (ChatGPT / Gemini / Claude).
- **Languages:** Portuguese (Native) | English (Advanced/Fluent).

PROJECTS & PRACTICAL EXPERIENCE

Virtual Assistant Portfolio | 2026 – Present

Portuguese Version | English Version

Developed in two languages (Portuguese and English), this project presents real-world solutions for daily administrative challenges in an organized, agile, and efficient manner, leveraging management tools such as Google Workspace and Notion.

Self-Taught HTML5 & CSS3 Practice | 2025 – Present

Repository | Live Version

Designed to independently apply HTML5, CSS3, and logical reasoning skills through real layout implementations, demonstrating organization and operational problem-solving capabilities.
